

Carnon Downs Methodist Church Projector Screen Bid

Inside
of
church

We have recently been given a projector for use in the church and church hall. We hope to make our services more lively and relevant and to attract people who wouldn't normally go into a church building.

For those who find any religion off-putting can we remind you that

Spiritual Health is one of four dimensions to well-being as defined by the [World Health Organization](#) (WHO),

At the moment we have to show our PowerPoint presentation on the front right wall of the church. This means some of the congregation can't see it very well.

**PowerPoint
presentation
shown here**

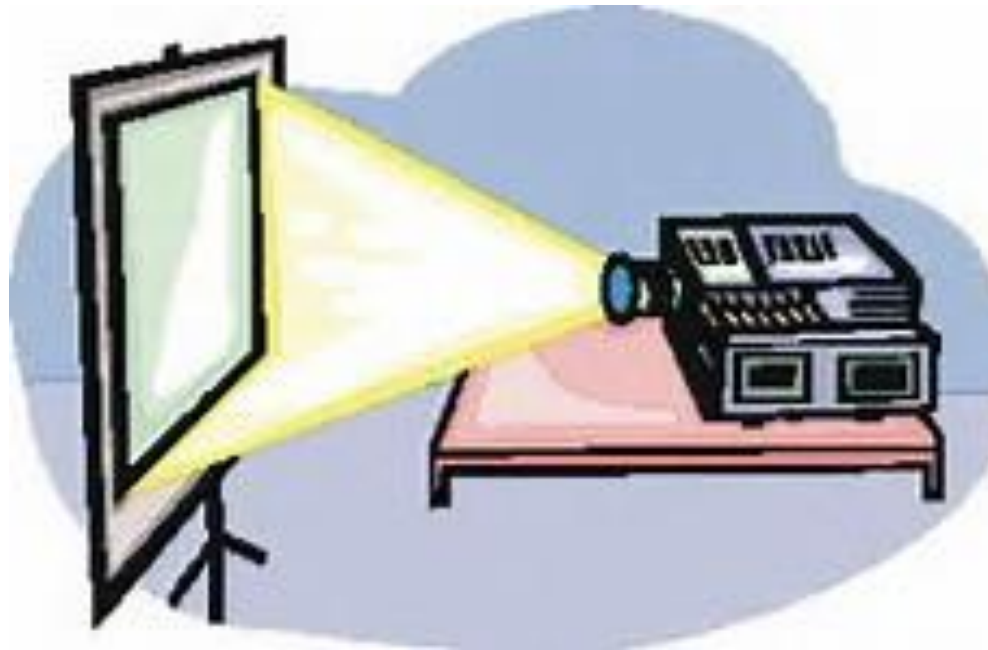

We would also like to use the projector in our redecorated church hall. Again it is difficult to project onto a wall.

We hold coffee mornings and soup lunches. If we could show PowerPoint presentations we could have more effective social gatherings

We would also like to encourage other hall hirers to use the projector

For example the projector could be used by exercise groups to show new moves

**And with
the
Sunbeams
Stay and
Play group
to tell
stories with
pictures.**

**This is the
type of screen
we would like
to buy .**

**It is portable
and easy to
pull up from
the bottom.**

**We hope you will
consider this a worthy
project to spend your
money on.**

Thank you for watching
