

# Christmas Lights for Carnon Downs

Application by Carnon Downs  
Community Association

# What do we want to do?

- ▶ Last year (2016), a Christmas tree was kindly erected outside Carnon Downs Village Hall. It got a group of like minded people within the village talking and a group was formed to raise money to have a Christmas Tree in the village again not just for 2017 but for future years.
- ▶ We are fundraising to enable the newly formed Carnon Downs Community Association to buy a Christmas Tree plus lights to decorate it with. We would also like to buy lights to display throughout the village too.
- ▶ How many of you have been to places such as Mousehole, Angarrack and Cadgwith to see their fabulous Christmas Lights? Wouldn't it be nice to see a great display up here in Carnon Downs.

# How do we propose to turn a dream into a reality?

- ▶ The Carnon Downs Community Association (CDCA) are applying not just for funding from Feock Parish Council but also from other sources.
- ▶ We plan on hosting a number of community events throughout each year to be able to put on this display year after year.

Summer BBQ

Bake off

## The fun part.... The Grand Switch on

- ▶ In order to get the community of Carnon Downs together, we plan on hosting a 'Grand Switch on' whereby we invite someone to switch on the Christmas Lights of Carnon Downs.
- ▶ The plan is to have a get together whereby we will have a Santas Grotto for the kids, Mulled Wine, Mince Pies and Pulled Pork baps.

# The future

- ▶ Obviously to build up a collection of Christmas Lights, it is going to take lots of time, lots of money and lots of patience. If we are successful in receiving any funding from Feock Parish Council towards our project, it is the start of this reality.
- ▶ It may be that in 2017 we get a Christmas Tree, lights to decorate it and maybe one or two lights for the village. Each subsequent year we can add to this collection of lights and eventually build up to having a display that locals and visitors alike come to the village to see and to see what new lights have been added that year.
- ▶ The photo to the right is an example of a light display it would be good to see in the village, obviously replacing Angarrack with Carnon Downs.
